

## TMP Exception for Professional Temporary Exports

The export of items, technology, commercial software, and encryption code (henceforth “items”) is subject to export control regulations (this includes laptops, PDAs, and digital storage devices). The U.S. Department of Commerce’s Export Administration Regulations (EAR) makes an exception to licensing requirements for the temporary export or re-export of certain items, technology, or software for personal use if the criteria to which you are certifying below are met.

The exception does not apply to:

- EAR satellite or space-related equipment, components, or software
- Technology associated with high-level encryption products
- Defense items, technology, data, or software regulated by the U.S. Department of State’s International Traffic in Arms Regulations (ITAR)

Detailed Description of Items, Technology, or Software to which this Certification applies:

### Attestation

By my signature below, I certify that:

1. I will ship or hand-carry the items as a “tool of the trade” to conduct U-M business only,
2. I will return the items to the U.S. on the return date shown below which is no later than 12 months from the date of leaving the U.S., unless the items are certified by me to have been consumed or destroyed abroad during this 12-month period.
3. I will keep the items, technology or software under my “effective control” while abroad (defined as retaining physical possession of the item or keeping it secured in a place such as a hotel safe, a bonded warehouse, or a locked or guarded exhibition facility),
4. I will take precautions to protect against unauthorized release of the technology while the technology is being shipped or transmitted and used abroad, such as:
  - a. Use of secure connections when accessing email and other business activities that involve the transmission and use of the technology,
  - b. Use of password systems on electronic devices that store the technology, and
  - c. Use of personal firewalls on electronic devices that store the technology.
5. The equipment will not be used in relation with any nuclear research, military use, or for the development of weapons of mass destruction.
6. I will not ship or hand-carry the items, technology, or software to a comprehensively embargoed country without consulting the U-M Export Controls Program (ECP). If I am planning to travel to these countries, I will consult the ECP at [exportcontrols@umich.edu](mailto:exportcontrols@umich.edu).
