

Outside Activity Disclosure Guidance

Outside activities, relationships, or interests (“outside activities”) are those endeavors you undertake with an external entity/organization which rely upon, or utilize, the professional expertise that you provide to U-M.

Whether your U-M appointment is full time, part-time, or less than 12 months, you are responsible for disclosing the outside activities for you, your spouse, domestic partner, and/or dependent children when:

- The outside activity relies upon or utilizes your area of expertise, scholarship, employment;
- The outside activity has the potential to influence your U-M duties (research, teaching, clinical, or public service); or
- The external entity does business with U-M

In general, outside activities fall into the following five categories. Within each category there are specific activities to disclose and not disclose. Use this chart as guidance when disclosing your outside activities in M-Inform.
